Clinical Informatics Specialist

We are currently looking for a permanent full-time Clinical Informatics Specialist. The successful candidate will play an integral role in the support, and maintenance of both clinical and non-clinical health care information technologies. This position will find workflow efficiencies and best practices as we advance our clinical systems primarily in the Meditech environment. Reporting directly to the Digital Health Manager, the Clinical Informatics Specialist is a highly motivated individual who proves superior technical skills combined with exceptional problem-solving abilities. This position requires the candidate to work onsite, with the occasional opportunity for remote work.

The successful candidate will work in collaboration with Managers, Clinical teams, and electronic health record super-users to provide guidance and support on health care informatics systems, new modules, upgrades, and interface requirements. As well will foster and support a team environment to ensure the attainment of our organizations goals and will act as a role model for all staff and promote the reputation of the facility in the community.

The Espanola Regional Hospital and Health Centre is an equal opportunity employer committed to inclusive, barrier-free recruitment and selection processes. If contacted for an employment opportunity, please advise if you require an accommodation.
